KALLI HORN
ILLUSTRATOR

I am this girl!

I am a sketcher since I was born. When I was a little girl I used to fill it up pages and more pages with little "perfect" circles. Nowadays, grown up, I am here, fitting myself in the illustrator's world. The little circles turned out into very detailed drawings with a realistic sight of the world.

I am specialising in Pet and Wildlife, but I'm also taking an adventure into people portraits, which, I can say, is a challenge for me!

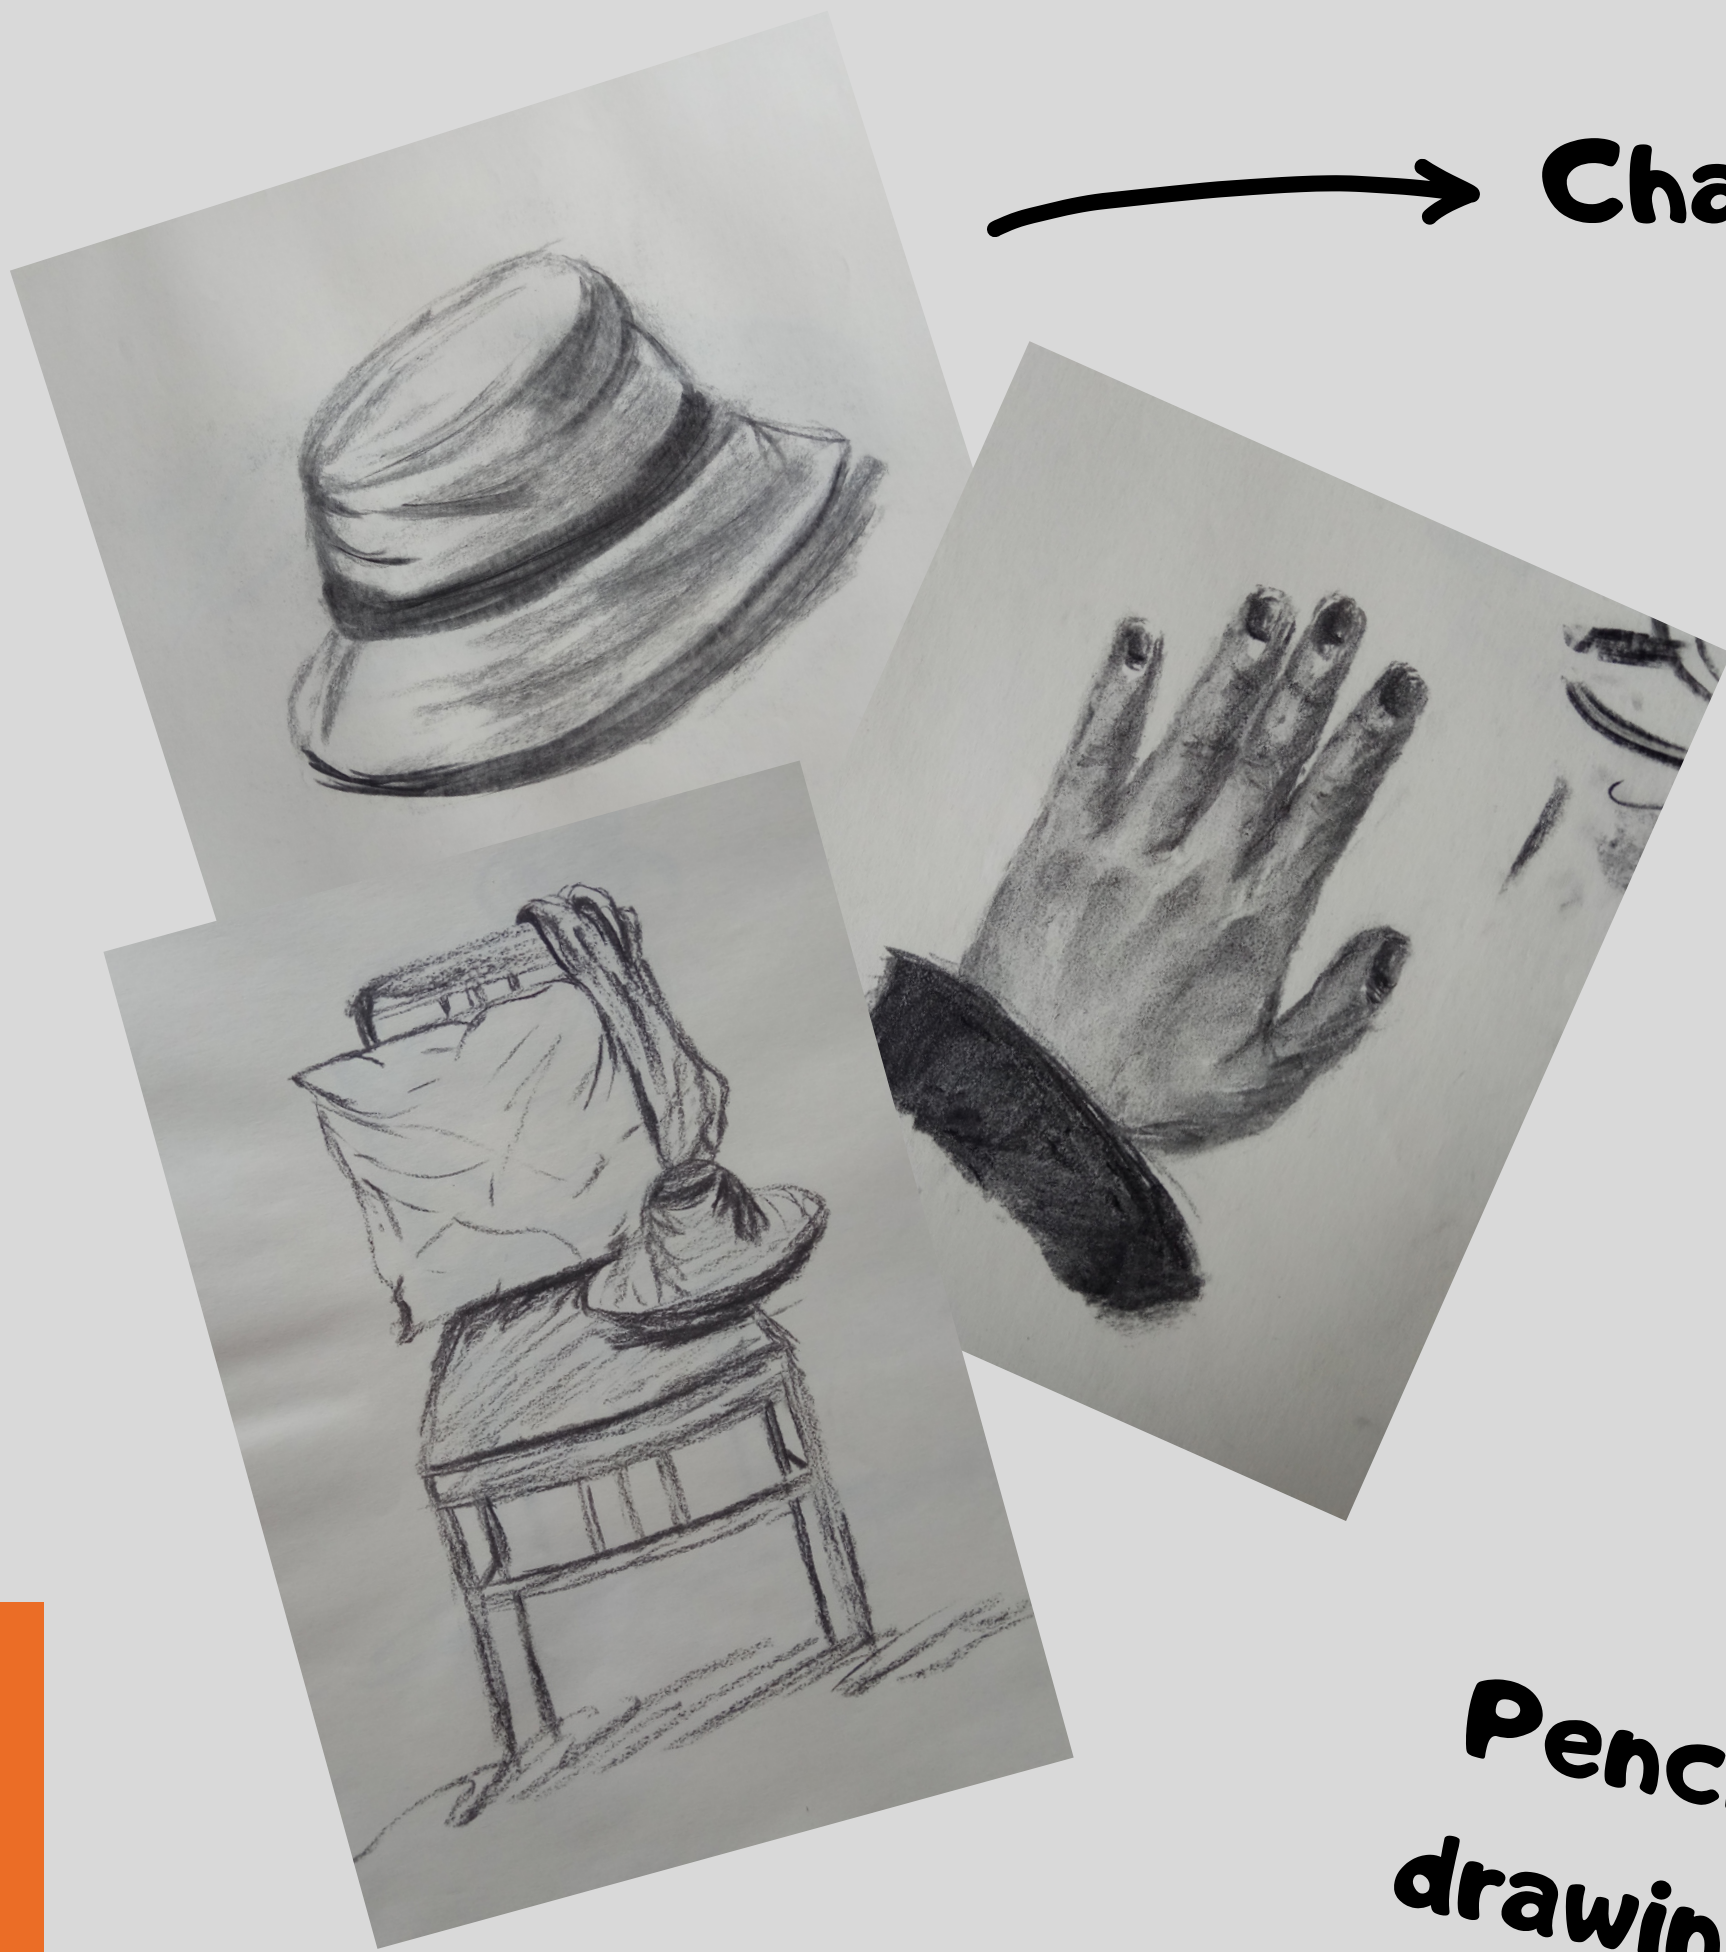

I hope you enjoy the journey you'll have here!

Thanks,

Kalli Horn

Once upon a time, these were the drawings I used to do, for study or even for fun.

Unfortunately, I do not have any images of my first little circles drawings, but I do have kind of a very estimated collection of what I've been drawing since then...

I've started with bugs... and bees!
I am a non-graduated Biologist, and I'm very
in love with bugs, basically!
Those guys here are handmade with colored
pencils and felthpen.

This drawing was the turning point for me in my career.

I was not in a very good moment of my life (I believe 2020 was a challenge for everyone of us) and I can say that this cat saved me.

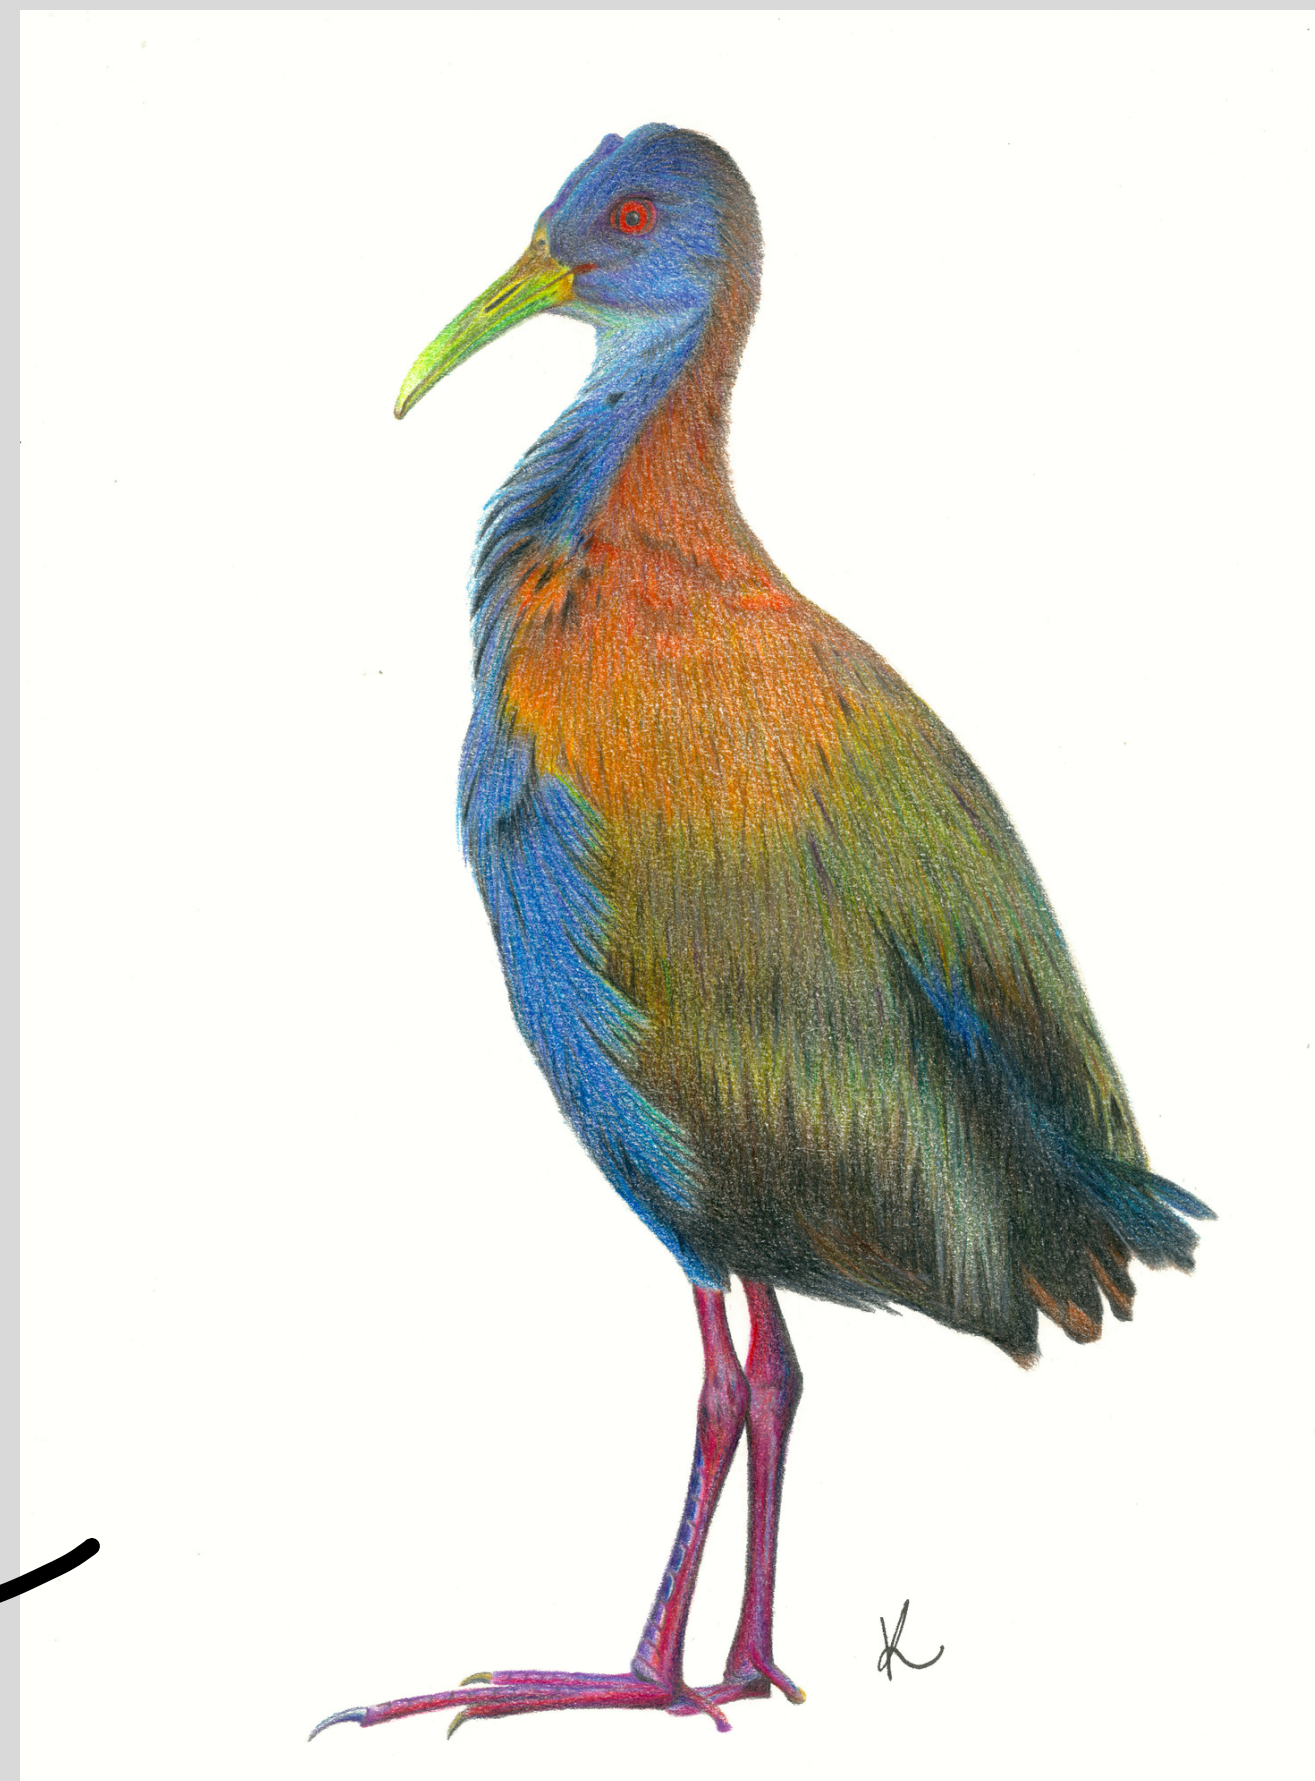

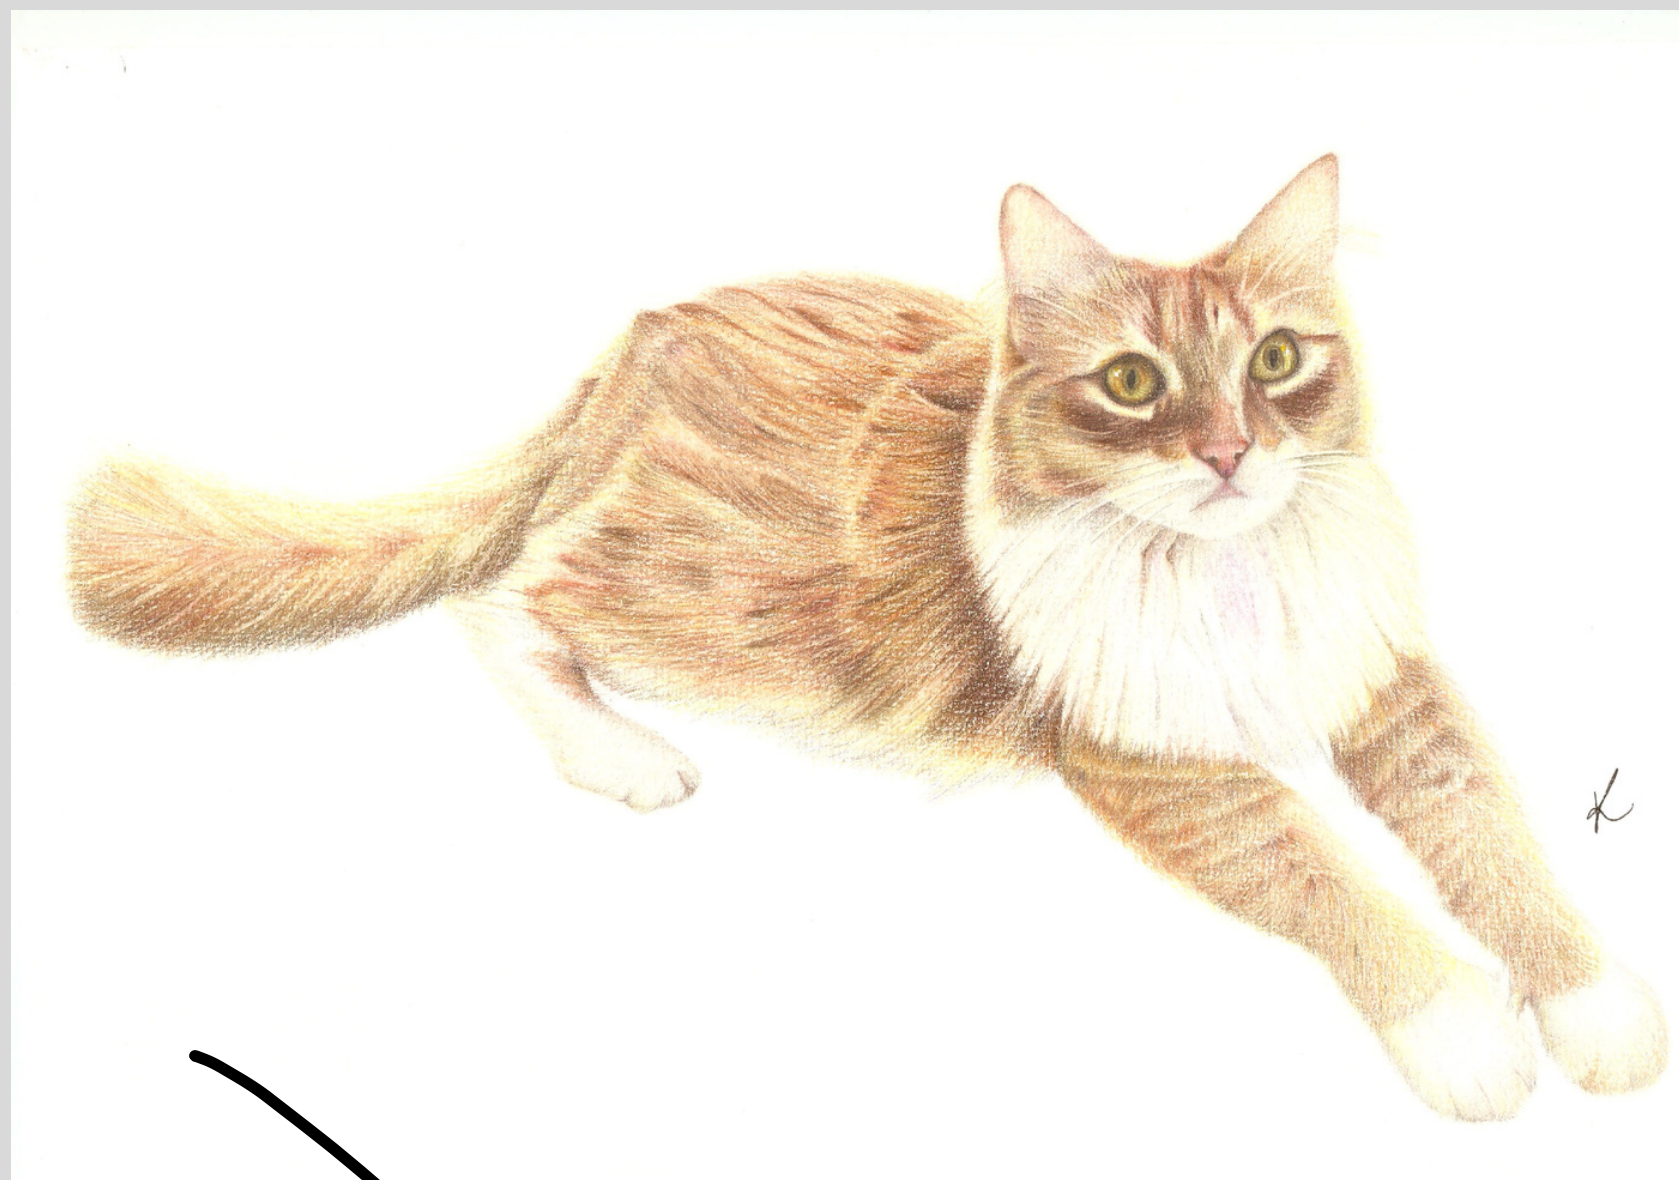

It gave me a whole new perspective of what I could do in my life, with my life and with my career.
