why we took the next step

Becoming an **association** allows us to:

- Create clearer structure and accountability
- Strengthen partnerships
- Access funding opportunities
- Better support and enable community-led initiatives

OUR VISION

what we envision

A regenerative and resilient Lisbon, shaped by people coming together to lead climate action.

OUR PURPOSE

our role in achieving this

We create spaces, initiatives and relationships to catalyse local, community-led climate action in Lisbon.

the next chapter

a new structure that supports our purpose

a formal association

- Horizontal governance
- Transparency and shared responsibility
- Access funding opportunities

an enabler for community initiatives

- Initiatives proposed and led by community members
- Supported (not controlled) by the association

an organiser of impactful events

- Continuing event series that we have seen work to better support community and engage citizens
 - More intentional events, aligned with our other initiatives
-

our pilot initiative

Lisboa Repair Project

repair map

Creation of a trustworthy, visual and interactive map showing the places in the city where all sorts of items can be given an extended life.

storytelling campaign

A narrative campaign focused on the repair shop owners' stories, especially shedding light on the migrant, elderly and women-led repair businesses

circular workshops

Locally-endorsed workshops and upskilling sessions for residents, with a focus on youth, to promote circular behaviours
